JANUARY-JUNE.

1950

COPYRIGHT OFFICE  
THE LIBRARY OF CONGRESS  
WASHINGTON 25, D. C.

REMOVAL OF DEPOSITS FROM  
COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1951, any article of the following named classes of published works deposited for copyright between January 1, 1947, and January 1, 1948, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific  
or technical character.

Photographs.

Prints and pictorial illustrations excluding  
prints or labels used for articles of merchandise.

Other published works and all unpublished works are not included in this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: \$1.00 per issue, \$2.00 per year.

Photographic Works . . . . .	107
Greeting Cards . . . . .	123
Selected Books in Art and Photography . . . . .	133

## PREFACE

**THIS** part of the *Catalog of Copyright Entries* contains lists of the domestic and foreign works registered in the Copyright Office in Classes G, H, I, J and K from January 1, 1950, through June 30, 1950. Included also are selected books in the fields of art and photography, and greeting cards registered in all classes. Renewal registrations in these classes made in this period are listed in Part 14A of the *Catalog*.

**Arrangement.**—The works included in this issue are listed in five sections, each of which consists of an alphabetical arrangement of complete entries under the names chosen as main headings, and of brief entries in the form of cross-references from other names associated with the works and from variant forms of names.

The first section consists of *Works of Art, Reproductions of Works of Art, and Prints and Pictorial Illustrations* (i.e., registrations in Classes G, H and K). It includes published and unpublished original paintings, drawings, designs for works of art, three-dimensional works of art, published reproductions of works of art in usually different medium; and published prints and pictorial illustrations, including picture post cards, cartoons, and prints used for calendars, posters and other commercial and artistic purposes. The main heading for each entry in this section is name of the author (artist, or employer in case of a work made for hire); brief entries in the form of cross-references are included for copyright

claimants, joint authors, authors of reproductions, etc.

In the second section are listed *Scientific and Technical Drawings* (i.e., registrations in Class I). It comprises published and unpublished charts, architectural and engineering plans and drawings, mechanical drawings, and also anatomical models and other plastic works. The main entries in this section are listed under author (artist, draftsman, etc., or employer in case of a work made for hire). Cross-references are included for claimants, joint author, etc.

*Photographic Works* are listed in the third section (i.e., registrations in Class J). It consists of published and unpublished photographic prints, film strips, slide films, stereoscopic and other transparencies and slides. Reproductions of photographs registered in Classes G, H and K appear in the first section of this catalog. The main heading for each entry in this section is the copyright claimant. Cross-references are included for joint claimants and for photographers if they are not also the claimants.

The fourth section contains a list of *Greeting Cards*, the majority of which are registered in classes A and K. Entries in this section are listed under the name of the copyright claimant. Cross-references are included for joint claimants and for authors (artists or authors of words).

In the fifth section *Selected Books in Art and*

Photography are listed. These works are registered in Class A and appear also in Part 1A of the *Catalog*. They are arranged alphabetically under author and are books which consist largely or primarily of reproductions, books which list or describe photographs or works of art (including those devoted to the works of individual artists and photographers) and catalogs of exhibitions.

**Bibliographic Data.**—Under the heading (name of author or copyright claimant) each main entry includes, as applicable, 1) title; 2) other essential names associated with the work; 3) description of the pictorial content of the item; 4) publisher and place of publication when the publisher and claimant are different (if the address is given in the statement of copyright facts, the claimant and the publisher are the same); 5) a brief statement describing the physical nature of the material (omitted in Class J when the deposit is a photographic print); and 6) series.

**Copyright Data.**—The portion of the entry giving the facts of copyright registration begins with the copyright symbol ©. This is followed by 1) name of the copyright claimant, if it differs from the name in the heading (when the copyright symbol follows the name of the author in the heading, it indicates that the author and copyright claimant are the same); 2) for published works, date of publication as given in the application; for unpublished works, the abbreviation "1c" followed by the date of receipt in the Copyright Office of one copy; and 3) the registration number.

The *Catalog of Copyright Entries* records the claimant in whose name a work is originally registered, and contains no record of subsequent changes of ownership. For information relating to transfer of rights, search in the assignment records of the Copyright Office will be undertaken upon request to the Register of Copyrights and upon payment of the statutory search fee.

**Deposit of Copies.**—In the case of every copyright entry listed in this part of the *Catalog*, the deposit of copies (or copy) as required by sections 12, 13 or 215 of Title 17 of the United States Code has been made; or, in the case of published three-

dimensional works of art, there has been a compliance with section 202.8 (b) of the regulations of the Copyright Office, published in the *Code of Federal Regulations*, 1949 edition.

**Authority.**—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides that the *Catalog* "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

**Organization of the Catalog.**—This issue of the *Catalog* is part of Volume 4 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the Table of Organization which faces the title-page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. Foreign works for which two copies have been deposited, under Section 215, are distinguished by a zero immediately following the class symbol. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under other symbols if the subject matter or type of material of these registrations is similar to that generally included in the part.

**Orders.**—The Office calls attention to the fact that orders for all parts of the *Catalog* should be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the

inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either with the order or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the Table of Organization. The annual subscription rate for each part is twice the price of a single number, since all parts are issued

semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for \$20 a year.

**Inquiries.**—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*

## ABBREVIATIONS

The following list includes abbreviations used in this catalog with specific copyright and bibliographic meanings. Definitions are not given for abbreviations in common use.

Class K—Prints and pictorial illustrations . . . . .	2, 248
Total . . . . .	6, 026

The above figures show the registrations for works of art, reproductions of works of art, scientific and technical drawings, photographic works, prints and pictorial illustrations for January–June 1950, but do not necessarily represent the exact number of entries in this issue of the *Catalog*.

## WORKS OF ART

An alphabetical list, by author (artist or employer in case of a work made for hire), of art works registered during the period covered by this catalog. These works include published and unpublished original paintings, drawings, designs for works of art, and three-dimensional works of art; published reproductions or works of art in, usually, a different medium; and published prints and pictorial illustrations, including picture post cards, cartoons, and prints used for calendars, posters, and other commercial and artistic purposes. Cross-references from the names of copyright claimants, joint authors, etc. are interfiled with main entries.

## PHOTOGRAPHIC WORKS

Analphabetical list, under copyright claimant, of published and unpublished photographic prints, film strips, slide films, stereoscopic and other transparencies, and slides registered during the period covered by this catalog. Cross-references from the names of joint claimants and photographers, if different from the claimants, are interfiled with the main entries. The physical nature of each item is described; absence of such description indicates that the item is a photographic print. Reproductions of photographs registered in Classes G, H & K will be found in the first section of this catalog.

## REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1952, any article of the following named classes of published works deposited for copyright between January 1, 1948, and January 1, 1949, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific  
or technical character.

Photographs.

Prints and pictorial illustrations excluding  
prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: \$0.50 per issue, \$1.00 per year.

## PREFACE

THIS part of the *Catalog of Copyright Entries* contains lists of the domestic and foreign works registered in the Copyright Office in Classes G, H, I, J and K from July 1, 1950, through December 31, 1950. Included also are selected books in the fields of art and photography, and greeting cards registered in all classes. Renewal registrations in these classes made in this period are listed in Part 14A of the *Catalog*.

**Arrangement.**—The works included in this issue are listed in five sections, each of which consists of an alphabetical arrangement of complete entries under the names chosen as main headings, and of brief entries in the form of cross-references from other names associated with the works and from variant forms of names.

The first section consists of *Works of Art, Reproductions of Works of Art, and Prints and Pictorial Illustrations* (i. e., registrations in Classes G, H and K). It includes published and unpublished original paintings, drawings, designs for works of art, three-dimensional works of art, published reproductions of works of art in usually different medium; and published prints and pictorial illustrations, including picture post cards, cartoons, and prints used for calendars, posters and other commercial and artistic purposes. The main heading for each entry in this section is name of the author (artist, or employer in case of a work made for hire); brief entries in the form of cross-references are included for copyright

claimants, joint authors, authors of reproductions, etc.

In the second section are listed *Scientific and Technical Drawings* (i. e., registrations in Class I). It comprises published and unpublished charts, architectural and engineering plans and drawings, mechanical drawings, and also anatomical models and other plastic works. The main entries in this section are listed under author (artist, draftsman, etc., or employer in case of a work made for hire). Cross-references are included for claimants, joint author, etc.

*Photographic Works* are listed in the third section (i. e., registrations in Class J). It consists of published and unpublished photographic prints, film strips, slide films, stereoscopic and other transparencies and slides. Reproductions of photographs registered in Classes G, H and K appear in the first section of this catalog. The main heading for each entry in this section is the copyright claimant. Cross-references are included for joint claimants and for photographers if they are not also the claimants.

The fourth section contains a list of *Greeting Cards*, the majority of which are registered in classes A and K. Entries in this section are listed under the name of the copyright claimant. Cross-references are included for joint claimants and for authors (artists or authors of words).

In the fifth section *Selected Books and Art and*

Photography are listed. These works are registered in Class A and appear also in Part 1A of the *Catalog*. They are arranged alphabetically under author and are books which consist largely or primarily of reproductions, books which list or describe photographs or works of art (including those devoted to the works of individual artists and photographers) and catalogs of exhibitions.

**Bibliographic Data.**—Under the heading (name of author or copyright claimant) each main entry includes, as applicable, 1) title; 2) other essential names associated with the work; 3) description of the pictorial content of the item; 4) publisher and place of publication when the publisher and claimant are different (if the address is given in the statement of copyright facts, the claimant and the publisher are the same); 5) a brief statement describing the physical nature of the material (omitted in Class J when the deposit is a photographic print); and 6) series.

**Copyright Data.**—The portion of the entry giving the facts of copyright registration begins with the copyright symbol ©. This is followed by 1) name of the copyright claimant, if it differs from the name in the heading (when the copyright symbol follows the name of the author in the heading, it indicates that the author and copyright claimant are the same); 2) for published works, date of publication as given in the application. For unpublished works, the copyright symbol is followed by 1) the name of the copyright claimant; 2) the date on which the last of all the items required to complete registration (i. e., each of the following: copy, application and fee) was received in the Copyright Office; and 3) the copyright registration number.

The *Catalog of Copyright Entries* records the claimant in whose name a work is originally registered, and contains no record of subsequent changes of ownership. For information relating to transfer of rights, search in the assignment records of the Copyright Office will be undertaken upon request to the Register of Copyrights and upon payment of the statutory search fee.

**Deposit of Copies.**—In the case of every copyright entry listed in this part of the *Catalog*, the deposit of copies (or copy) as required by sections

12, 13 or 215 of Title 17 of the United States Code has been made; or, in the case of published three-dimensional works of art, there has been a compliance with section 202.8 (b) of the regulations of the Copyright Office, published in the *Code of Federal Regulations*, 1949 edition.

**Authority.**—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides that the *Catalog* "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

**Organization of the Catalog.**—This issue of the *Catalog* is part of Volume 4 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the Table of Organization which faces the title-page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. Foreign works for which two copies have been deposited, under section 215, are distinguished by a zero immediately following the class symbol. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under other symbols if the subject matter or type of material of these registrations is similar to that generally included in the part.

**Orders.**—The Office calls attention to the fact that orders for all parts of the *Catalog* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the

inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either with the order or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the Table of Organization. The annual subscription rate for each part is twice the price of a single number, since all parts are issued

semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for \$20 a year.

**Inquiries.**—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

## WORKS OF ART, REPRODUCTIONS, PRINTS

An alphabetical list, by author (artist or employer in case of a work made for hire), of art works registered during the period covered by this catalog. These works include published and unpublished original paintings, drawings, designs for works of art, and three-dimensional works of art; published reproductions or works of art in, usually, a different medium; and published prints and pictorial illustrations, including picture post cards, cartoons, and prints used for calendars, posters, and other commercial and artistic purposes. Cross-references from the names of copyright claimants, joint authors, etc. are interfiled with main entries.

## PHOTOGRAPHIC WORKS

An alphabetical list, under copyright claimant, of published and unpublished photographic prints, film strips, slide films, stereoscopic and other transparencies, and slides registered during the period covered by this catalog. Cross-references from the names of joint claimants and photographers, if different from the claimants, are interfiled with the main entries. The physical nature of each item is described; absence of such description indicates that the item is a photographic print. Reproductions of photographs registered in Classes G, H & K will be found in the first section of this catalog.
